

Health Support planning at OSHC

Health support planning in education and care promotes attendance and positive engagement in the curriculum regardless of a child or young person's health status.

Health Support planning at OSHC is a requirement of families who have a child/ren with a disability or medical condition. The OSHC is an inclusive and diverse environment and will require detailed information from families and medical practitioners to ensure adequate care can be given.

Confidentiality

Health and personal care information is confidential and only provided to staff that are supporting the child or young person and emergency services (if required).

Health care plans

[Health care plans](#) are completed by treating health professionals to describe individual care recommendations. This page provides links to individual care plans, first aid plans and medication agreements.

Managing health in education and care

The [managing health in education and care page](#) provides information to education and care staff, health professionals, children and young people and their families on specific health conditions, and how these are managed in education and care services.

A [health profile HSP128](#) to be completed by parents/guardians on enrolment to provide education and care services a summary of health support requirements for their child or young person.

(Department for Education <https://www.education.sa.gov.au/health-support-planning>)

[DRUG ALLERGY](#)

NON-SPECIFIC HEALTH CARE PLAN HSP 110

This form is to be completed for every child who has a disability or medical condition. Please include your child's photo for this form. To be completed by the treating health professional and parent or legal guardian for a child or young person requiring additional care or supervision related to their physical or mental health and wellbeing.

SEIZURE MANAGEMENT PLAN HSP 340

Please include your child's photo for this form.

This form can be completed by parent or guardian (without specialist paediatrician or neurology input) where the seizure is managed by [standard seizure first aid](#) and midazolam is NOT prescribed.

Seizure management plans that are modified, overwritten or illegible will NOT be used.

The specialist paediatrician, neurologist or neurology nurse consultant section must be completed where:

- Midazolam has been prescribed for any seizure type (an [Emergency Medication Management Plan](#) must be completed)
- Any seizure type requires a non-standard first aid response
- Parent or guardian requires support to complete this form

Grange Primary School OSHC Medical Condition Risk Minimisation and Communication Plan

Parents/Guardians are required to develop the Risk Minimisation Plan before their child attends and in consultation with the responsible person on site. The Risk Minimisation Plan is required for every child who is enrolled who has a diagnosed health care need, allergy or relevant medical condition, and will be kept in the medical folder.

Please note: All medications require prescription, child's name, Dr's full name and expiry date. Medication will be stored at OSHC in an insulated medical bag.
